INTERNET FREEDOM BONUS PACK

>MALICIOUS CONTENT_

The Rules

- Each player draws 2³ red cards. The player with the most recent security incident begins as the blue team, turns over and reads aloud a blue card. Everyone else (the red team) plays one or more red cards face down to fill in the blank(s).
- The blue team shuffles and reads aloud each combo, picking the winning red card. Whoever played the answer keeps the blue card for scoring.
- The blue team role shifts to the left for the next round, and everyone draws up to 10 red cards.
- Hack the rules to your liking, push to prod!

The Creds

This work is licensed by Jon Camfield under a Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International License. Thanks to everyone who's shared card ideas or whiskeys along the way.

Lock icon by Font Awesome, PFTempesta font by Yusuke Kamiyamane and there's probably some jquery in here too.
